

# MMX-BBX-FXMNS

## MMX Mass Notification System Installation Instructions

### MMX Mass Notification System (MMX-BBX-FXMNS) Enclosure

The MMX-BBX-FXMNS enclosure includes a backbox and a two part door and display deadfront chassis. This enclosure can accommodate all the MMX Fire Alarm and audio models, vertical mounting QMP-5101NV Master Paging Microphone and QMT-5302NV Master Telephone. Refer to Figure 1 for the enclosure dimensions.

**Figure 1: MMX-BBX-FXMNS Enclosure with Dimensions**

The backbox holds the fire alarm system MMX-2000MNS, adder modules, the audio card cage QMB-5000N, PS-2040 Power Supply and batteries. The inner door or deadfront chassis holds the fire alarm display module, annunciator modules and the QMP-5101NV Network Master Microphone Paging module and the QMT-5302NV Network Master Telephone Module.
